You agree to notify us if your status in this regard changes.

25. LAW AND JURISDICTION

- This Agreement shall be governed by and construed in accordance with the laws of Malta without regard to its conflicts of laws provisions. You hereby submit to the exclusive jurisdiction of the Courts of Malta, including but not limited to cases where you are domiciled or resident outside Malta. However, without prejudice to and notwithstanding the foregoing, NTL/HCI reserves the right to file an action in the jurisdiction where you reside or are domiciled before any other competent court, in which case Maltese law (without giving effect to conflict of laws provisions) will still apply without regard to the jurisdiction’s conflict of laws provisions.

26. MISCELLANEOUS

- No failure on the part of any Party to exercise, and no delay on its part in exercising, any right or remedy under this Agreement, will operate as a waiver thereof, nor will any single or partial exercise of any right or remedy preclude any other or further exercise thereof or the exercise of any other right or remedy. The rights and remedies provided in this Agreement are cumulative and not exclusive of any rights or remedies provided by law.
- The illegality, invalidity or unenforceability of any provision of this Agreement under the law of any jurisdiction will not affect its legality, validity or enforceability under the law of any other jurisdiction nor the legality, validity or enforceability of any other provision.
- Except to the extent that Maltese law admits variation by contract and are so varied by the terms of this Agreement, the powers, duties, rights and obligations of you and us will be overridden by, and, to the extent that they may conflict, be subject to, Maltese law and we will have all the powers to perform its functions in accordance with the Laws.
- This Agreement may be executed multiple counterparts as may be necessary, each of which shall be deemed an original and together will form one original. It shall not be necessary in making proof of this Agreement to produce or account for more than a number of counterparts containing the respective signatures of, or on behalf of, all Parties to the Agreement. This Agreement may be executed through delivery of duly executed signature pages by facsimile or

electronic mail.

- This Agreement supersedes any prior agreement or understanding between us, whether written or oral, on the subject here- of, and all such prior agreements and understandings are cancelled as at the date hereof.

ANNEX I. NewTraderLab Risk Disclosure

For Spot OTC Foreign Exchange, Spot OTC Precious Metals, and Contracts for Difference (CFD) Trading.

You are required to read and acknowledge that you have read and understood this Risk Disclosure Statement. By signing the Agreement, you acknowledge, understand and agree to the following disclosures:

The NTL Risk Disclosure Statement is a pertinent part of the Client Agreement and is hereby incorporated into the Agreement by reference.

MANY FOREIGN EXCHANGE DEALERS AND/OR BROKERS ARE COMPENSATED BY TAKING THE DIFFERENCE BETWEEN THE BID/ASK SPREAD IN THE PRICE PUBLISHED TO THEIR CLIENTS. NTL WILL BE COMPENSATED BY CHARGING A COM- MISSION AND A MARK UP OF THE RAW SPREAD WE RECEIVE FROM OUR LIQUIDITY PROVIDERS. NTL MAY PARTICIPATE IN MARKUPS AND COMMISSIONS REQUESTED BY INTRODUCING BROKERS. THE FOREIGN CURRENCY TRADING YOU ARE ENTERING INTO IS OVER-THE-COUNTER AND IS NOT CONDUCTED ON AN EXCHANGE.

Trading in margined Foreign Exchange and/or Precious Metals and CFDs involves a significant degree of risk including the risk of losing all or more than all Your Funds. Trading in these markets is not suitable for everyone and you should consider your decision in light of your personal financial circumstances, education, knowledge and appetite for risk. The Account is yours and you are responsible for monitoring your Account. We do not accept any liability for monitoring the risk you assume in your Account or for the activities of those third parties to whom you grant trading authority or otherwise grant access to your Account. This brief statement does not disclose all of the risks and other significant aspects of spot OTC Foreign Currency, Precious Metals and CFD trading. In line with the associated risks, you should only trade if you understand the nature of the trading in which you are about to engage and the full extent of your risk exposure and we urge you to analyze your trading objectives, trading capital, investment limitations and tax status.

You understand and agree that we provide order clerks for emergency trading access on a 24-hour basis when the market is open. You further understand and agree that access to telephone trading is restricted to emergency instances when your plat- form is down and you have no other access to your account through a web enabled or mobile enabled platform. Finally, you also understand and agree that access to telephone trading is restricted to offsetting open positions using market orders. Our clerks will not accept contingent orders over the telephone and you may not open new positions over the telephone.

1.No Guarantee of Profit and ability to withstand losses

There is no guarantee of profit from trading through NTL. The value of Your Funds may decrease as well as increase. You acknowledge that no one associated with NTL or an Introducing Broker or representative with whom NTL has a relationship has guaranteed that you will profit from trading. You further confirm that you are able to sustain a total loss of Your Funds should such a loss occur. You understand that margined leveraged spot Foreign Exchange, Precious Metals and CFD trading is highly speculative and involves a significant risk of loss. You confirm you are willing to assume the legal, economic, and other risks associated with trading and that Your Funds are discretionary capital and if Your Funds are lost that the loss would not change your lifestyle. Trading may not be suitable for retirement funds. You are advised to closely manage your Account and to use prudent money management.

2. Effects of Leverage

Leverage can lead to quick losses as well as profits. You agree that a high leverage (a small amount of capital to control a larger amount) can lead to large losses when the market moves against your positions. NTL permits leverage based on account equity size, but it may alter leverage limits for clients classified as Professional in its sole discretion. Maximum leverage for NTL clients' accounts is subject to Client Categorization and prevailing European regulatory limits and as may be transposed within Malta's financial services regulatory framework, and which may be altered from time to time. Leverage limits, margin requirements and temporary leverage limitations are posted on NTL's website www.Newtraderlab.com

3. Over the Counter Liquidity Risk

You acknowledge that you may experience decreased liquidity (a "Thin" market) as a result of external events over which NTL has no control. In Thin markets the bid/ask widens and volatility may increase dramatically (a "Fast" market). Fast markets do not trade in an orderly progression and gaps in bids and offers are to be expected and there may be periods when no bids or offers are available. Our prices will always reflect the liquidity available to us. Exchange traded Contracts are also subject to Fast markets and Thin liquidity and price gaps should be anticipated.

4. Liquidation Risk and Inadequate Margin

If your Account is under-margined, your open positions may be liquidated in whole or in part. We reserve the right, but are not obligated, to liquidate your Account should your margin not be sufficient to cover the potential risk of loss. Required margin levels are indicated on NTL's trading platforms and you agree that you alone are responsible for monitoring your margin level. If your Account value goes below the Liquidation Level (see our website for the Liquidation Level associated with your particular platform), NTL reserves the right to automatically liquidate all or some of your open positions and you will be responsible for and liable for all resulting losses as a result of such liquidation. We may change the liquidation level in our sole discretion and in accordance with our risk management policies and procedures.

5. Price Risks

NTL expects that the executable prices we stream to you will be in line with the general Inter-bank Market but we do not represent, warrant or covenant, explicitly or implicitly, that this will always be the case.

6. Rollover Risks & Swap Rates Risks

NTL determines its roll and swap rates independently of prices that may be published elsewhere and short-term interest rates can create large spreads in two currency credit/debit differentials. By signing our Risk Disclosure Statement, you agree that at the close of business on days when the market is open (at or about 21:00 GMT) your positions will be automatically rolled to the next available spot settlement day with a net debit or credit to your Account based on NTL's swap (interest) rates. For illustration purposes, if, in an open currency pair, you are long the currency whose spot interest rate is higher than the short counter currency, a net credit is added to your Account value. Conversely, if you are short a currency whose spot interest rate is higher than the counter currency in the pair your Account will reflect a net debit at the end of the day. Positions that must be rolled from Spot Settlement date Friday to Monday will reflect debits/credits for three (3) business days. This will be reflected on your account at 21:00h GMT on Wednesday since the standard settlement date for spot Forex transactions is "T+2" or 2 business days from the date of the actual trade. Positions rolled from Monday to Tuesday and Tuesday to Wednesday, will reflect debit/ credits for only one (1) business day. Rollovers include holidays. If Tuesday is a holiday, the rollover from Monday will be two business days (i.e. from Monday to Wednesday). Many factors can affect the spread in interest rate differentials and you acknowledge this risk. NTL will publish its rollover rates for the respective spot instruments it offers on its website or on the trading platforms. NTL reserves the right in its sole discretion to change and/or correct these rates.

7. Contingent Order Execution Risk

There is no guarantee that NTL will be able to execute your contingent order at the requested price and you acknowledge and accept this risk. Although some contingent orders may be executed at less favorable prices, you are responsible and liable for these trades and NTL is not liable for any failure to execute the trade at your requested price.

8. Technology and Online Trading Risks

You accept the risk associated with trading online through the trading interfaces (platforms) NTL makes available to you. NTL does not guarantee that you will be able to successfully execute orders, manage positions or execute other critical tasks over the Internet via our technology or that of third parties upon whom we rely. Although NTL has taken great care in developing its technology and in choosing its service providers, without limitation we do not guarantee that our technology or that of our service providers will function without fail or without error and we do not accept any responsibility for such failure or errors regardless of the loss or damage you may experience as a result of such failure or error.

9. Negative Balance Protection

The purpose of the **Negative Balance Protection** is to ensure that, **as a Retail Client** in terms of MiFID, your maximum losses from trading CFDs, including all related costs, will not exceed the sum of your total equity which you will have committed and/or designated to your CFD trading account(s).

A trading account may come into "negative balance", or in other words, the total losses of the account may exceed the account's balance, in highly-volatile markets, where extreme market conditions may cause large and sudden price movements and therefore large and sudden losses may occur.

As a Retail Client however, NewTraderLab shall not seek compensation from you should your account incur a negative balance but would instead credit your account in the amount of the negative balance incurred, so that its actual equity is re-balanced to zero. This will not however relieve Clients from the responsibility to continuously monitor their accounts and to ensure that they are well-margined at all times and NewTraderLab shall be entitled to take the necessary measures to prevent your account from going negative, especially in the event that it is overexposed.

Non-Retail Clients (Eligible Counterparties, Per Se Professional and Elective Professional Clients) are not represented by this Protection and remain fully and wholly responsible for immediately repaying NTL the amount of negative equity as may be realized on their respective accounts. Our trading platforms are generally calibrated to liquidate open positions before your Account goes into a negative equity position (i.e. to avoid losses exceeding the net value of Your Funds). In exceptional circumstances however a large and sudden price movement may prevent us from closing out your market position as required and hence to protect against your account registering a negative equity balance. Clients holding multiple accounts will moreover be responsible for covering negative equity positions in individual accounts from equity balances held in other accounts. In such circumstances alone, NTL will be duly authorized to institute these transfers when and wherever necessary to cover any such shortfalls and in so doing NTL will not be held liable for any consequent changes to the Clients' prevailing leverage limits as they may or may not apply to any of their separate accounts, whether in credit or not.

10. Security Code and Online Security Risks

You are solely responsible for maintaining the secrecy and protection of your Security Access Codes and if your Account is compromised as a result of your failure to do so, you are solely liable for any and all damage, loss, expense or cost caused to NTL, any third parties and to yourself. This risk shall apply when NTL discloses your Security Access Codes to a third party at your specific written direction. Do not publish your Security Access Codes to anyone including NTL employees. If you forget or lose your Security Access Codes, or it is disclosed to any unauthorized person or you suspect your Account has been compromised you must change the Security Access Code immediately and notify NTL's compliance department. If you are unable to change the Security Access Code yourself notify NTL's compliance department immediately. Also, if NTL suspects your Account has been compromised we will disable your Account and advise you. We will re-enable your Account only after we are satisfied that your Account is secured. We will email a new Security Access Code to you at your email address in our records. During the period when your Account is disabled you must mitigate any potential or actual damage by placing orders via telephone.

11. Electronic Communication Facility Failure Risk

You assume the risk that electronic communications may fail and that you will not be able to contact or make contact with NTL as a result. Notwithstanding communication malfunctions, failures, an inflow of telephone orders or any other malfunction or negligence, you acknowledge and agree to hold harmless NTL for any loss or lost trading opportunity resulting from such communication failures or compromises. NTL will make available order clerks by telephone during business hours to accept emergency market orders, but there is no guarantee that your order will be transmitted for execution in a timely fashion during periods of communication malfunctions. Order clerks will not accept orders to open new positions.

12. Erroneous Price Print and Off Market Risk

NTL reserves the right to correct any trades executed at off market prices regardless of whether the price is in your favor or is against you. In such cases, we will notify you of the change in price.

13. Market Information

NTL will publish general market information and recommendations from time to time ("**Market Information**"). Market Information provided by NTL or its representatives is for informational and educational purposes only and does not constitute investment advice or an offer to buy or sell any Contract or enter into any Transaction. Any action you take in response to such Market Information is your independent action. We disclaim any fiduciary duty to you in this regard and we are not liable for any trading losses as a result of your actions.

14. Business Risk

If NTL should go out of business Your Funds may be at risk. You acknowledge that in the event of insolvency or NTL's sole decision to close its business you must only look to NTL for performance and return of Your Funds. In either event, NTL may liquidate your positions and remit Your Funds, at any time and for any reason, and you agree not hold NTL liable for any loss as a result of such liquidation.

15. Error Risk Responsibility

It is your responsibility to review all Transactions reported in your account, including but not limited to trades, corrections, debits, credits, conversions, buy/sell error and rollovers. Should you discover an error in your Account, you must report the error in writing to NTL within twenty-four (24) hours including the detailed specifics of the error including all trade identifiers. You may make a verbal report as well, but a written record will be necessary for confirmation.

16. Verbal Order Risk

All emergency market orders given via telephone must be given in English and a verbal order is not transmitted until the order clerk tells you that you are “done” and gives you the trade details. Our emergency clerks will add these “of book” trades to your electronic records. Contingent orders are not accepted via the telephone. All prices quoted to you prior to actual execution are indicative only and NTL reserves the right to change an indicative price if the execution price is different as a result of market conditions, a misquote or market volatility. We are not responsible for your order if we cannot hear you clearly or understand you, regardless of the reason. The telephone order procedure is as follows: you will be asked for your username, account number and other security feature at the discretion of our order clerk. When the order clerk confirms your identity, you are to give him/her your order: Buy or Sell, the number of lots and the desired currency pair, precious metal, or CFD product. For instance, the order clerk may repeat your order saying the following, “We are buying 2 lots EUR vs. USD at the Market. Right?” When you confirm, “Yes,” the order will be transmitted for execution to the Service Provider at the Market and the clerk will confirm the transmission. If you make a mistake while giving an order, you are to tell the order clerk to “scratch the order” and begin over.

We instruct our order clerks to “write down what you hear and read back what you wrote. If the two do not match, start over.” All orders may be taken on a recorded line without an electronic “beep” or other notification and all such recordings may be used for any purpose in any venue in any jurisdiction. Prices being published on our platforms may differ from the indicative prices quoted to you. NTL may charge a premium for telephone trades that will be reported on your trading statement. NTL is not responsible for or liable if the recordings of the telephone calls are erased or never recorded because of error, omission or for any other reason. You are responsible for protecting the confidentiality of your Account information and we are not liable if your Account is accessed by an unauthorized individual. NTL reserves the right to only accept market orders.

17. NTL’s Limited Liability.

You agree and acknowledge that NTL’s liability is limited pursuant to the terms of the Agreement and may be further limited under applicable laws.

You understand and agree that taxes and, or costs may exist that are not imposed by or paid through NTL.

The levels and bases of taxation depend on your private circumstances and we recommend that you consult a professional tax or other adviser in regard to these matters as we do not give tax or legal advice.

ANNEX II. Trading Rules and Regulations

These Trading Rules and Regulations, along with any and all amendments, Annexes, Risk Disclosures and all other documents used in conjunction with opening your Account are incorporated by reference and form one Agreement. These Trading Rules and Regulations may be changed at any time in our sole discretion and any such changes will have immediate effect, with or without notice to you, and any such changes will be posted on our website. You agree to adhere to our Trading Rules and Regulations as from time to time may be amended.

1. Our Trading Hours

NTL's normal trading business hours are from approximately 21:00 GMT Sunday during the Summer (22:00 GMT Winter-time) to approximately 21:00 pm GMT on Friday during the Summer (22:00 GMT Winter time) or such other times as may be posted on our Website from time to time. Our regularly scheduled trading hours for CFD products depend on the particular CFD product and the underlying exchange rate and our Services for such CFD products. You agree to make yourself familiar with the hours such markets trade, such as Eurex. These hours are typically from 02:00 GMT on Monday through 05:00 GMT Friday. Non-business days, such as holidays, will be posted on our website and you are responsible for keeping yourself up to date on our hours of operation. We will, on a best-efforts basis, conduct all maintenance during non-trading hours. However, we retain the right to conduct such maintenance when necessary, with or without notice.

2. Live Telephone and Chat Support

NTL will be offering its clients dedicated live support services to fulfill clients' needs. You may contact the Client Service Desk during Trading Hours in the following ways:

Email: support@newtraderlab.com

Telephone: +356 23273000

Chat: over the Chat Window available on our website

3. Order Types

NTL, through its various platforms, offers many order types depending upon the platform. These order types include, but are not limited to, market, buy/sell stop, buy/sell limit (take profit on MT4), MIT, place bid/offer. **You acknowledge and agree that you will become familiar with the various order types on the platform of your choice, how to use the order types you chose to use and understand how the order type operates and how it will affect your trading methodology.** The three most common types of orders are listed below:

Market Order: Market orders are orders to buy or sell immediately at the price where the market is then trading or at the next available price. A market order will be executed, but not necessarily at the stop price. Volume, liquidity and volatility may affect the price at which the order is executed.

Stop Order: Stop orders are orders to buy or sell when the market reaches a specific price. When the stop price is reached the order becomes a market order. Stop orders can be used to enter and exit the market. A buy stop is entered above the market price and a sell stop is entered below the market price. Stops are traditionally used to protect a profit or manage a loss down to a specific level.

Limit Order: Limit orders (sometimes referred to as "or better" orders) are orders to buy or sell at a specific price or at a better price than the market price at the time the order is entered. Limit orders can be used to enter or exit the market. A buy limit is placed below the market price and a sell limit is placed above the market price.

4. Hedging

You will be able to hedge on both the MT4 and the Jforex platform. Hedging permits you to be long and short in the same currency pair in order to lock in profits and manage losses pending your further determinations. Your margin may be lowered as a result of a hedge and NTL reserves the right to change the hedge margin level at its sole discretion. Depending upon your positions, your equity may still decrease as a result of the rollover swap rate applied to the positions. You agree to discuss the applicability of hedging with a NTL representative based on the trading interface (platform) you select.

5. Trade Size

The minimum trade size for foreign exchange contracts will be 0.01 Lot (a "micro lot"). A micro lot equates to 1,000 units of the base currency for FX, 1 troy oz for gold, 50 oz for silver and 10 barrels for oil. The maximum trade size depends on the currency pair and your Account classification. For Retail accounts our standard default maximum trade size per order

for is 50 standard lots on MT4 for FX, Gold and Silver and 20 lots for Oil products. The minimum trade size in CFDs is 1 CFD. The maximum trade size is 100 CFDs. You acknowledge and agree that it is your responsibility to understand the maximum trade size at the time you place a trade. NTL reserves the right to change its permitted order size without notice and we are not liable for any losses that occur as a result of a change in permitted order size.

6. Margin

It is your absolute responsibility to monitor your open positions and your required margin at all times. You must monitor your platform for available margin, and when your open positions reach the margin critical level (you are approaching insufficient margin given your open positions), you should either deposit additional funds into your Account (funds actually received and applied to your Account) before the equity level reaches our liquidation level (see our website for specific platform **Liquidation Level**) or offset sufficient losing positions in order to reach full margin. You understand and agree to maintain sufficient trading capital (Your Funds) equal to or in excess of the margin required to hold your positions. We always recommend to allow for two or more standard deviation market moves in calculating how many positions to carry in your Account and how large those positions should be. You are advised that markets are susceptible to rapid price fluctuations and you should not over commit your available capital.

7. Open Position Liquidations

Unless your Account is fully margined at all times, NTL will automatically liquidate some or all of the positions when your available margin reaches our Liquidation Level. **The Liquidation Level for the various platforms NTL offers is set forth on our website and you agree to make yourself aware of the Liquidation Level associated with the trading platform you are using and how the Liquidation Level will affect your trading.** Since the leveraged, margined OTC spot foreign exchange market, the precious metal market, and the CFD market are all subject to extreme swings in volatility NTL reserves the right (but is not obligated) to automatically liquidate all or some of your open positions and you will be liable for all resulting losses. We further reserve the right to change the Liquidation Level posted on our website in our sole discretion and the new Liquidation Level will be effective immediately and applicable to all open positions upon publication. We will make a reasonable effort to give you prior notice of our intention to change the Liquidation Level, but reserve the right to change it without prior notice, and duly notifying you of this change in the process. The automatic liquidation function is designed to offset the positions in declining order beginning with largest losing position down to smallest loser until Your Funds are sufficient to margin the remaining open positions. Clients under a Managed Program may set their own stop loss limit (EPM) lower than the proscribed Liquidation Level for your platform by making adjustments through Client Portal.

8. Daily Open Position Rollover

You agree that NTL is authorized to and will rollover all open positions in your Account to the next settlement spot date. The process of rolling over open positions is an automatic daily routine that takes place at or about 21:00 GMT (22:00 GMT winter-time) regardless of the platform on which you are trading. The rates at which your positions are rolled are determined by NTL in our sole discretion. Debits or credits will be posted to your Account at a time after the normal close of the business day for NTL. NTL reserves the right to change at its absolute and sole discretion, any rollover debits or credits at any time if NTL, in our sole discretion, if we determine that the amount debited or credited was done so in error. Our Swap rates for all products traded are posted and periodically updated on our website.

9. Funding and Withdrawal

You can deposit funds into your Account via the payment methods posted on our website. Funds are not available for trading until they are clear and posted to your Account. Banking fees associated with deposits and withdrawals may be charged to your Account, in addition to administrative fees listed on our website.

Currencies accepted for deposit are posted on our website. Currencies not posted on our website will be converted into the currency of the bank account you deposited them to. Instructions for depositing and withdrawing funds will be emailed to you upon account approval. It is important to note that NTL will not accept funds from nor make payments to third parties. Our compliance department must approve any exception to this prohibition. For further details, please refer to our website www.newtraderlab.com

10. Verbal Orders

We have order clerks who can receive and transmit for execution your offsetting market orders over the telephone in cases of emergency. Our order clerks do not take contingency (stops, limits, MIT, OCO, etc.) orders. Verbal order is available only in those circumstances when you have no other order entry option available and we only take market orders. You may only give orders to close open positions. You may not open new positions over the telephone. Our order desk can be reached by calling +356 23273000. The following steps should be followed to transact via the telephone:

1. You will be asked to provide your **account number/login, full name** and **Secret Question Answer**.

2. Once your identity is confirmed, you will be asked to provide the ticket number of the trade you wish to close. NTL Representative will confirm the details of the trade (e.g. "This is a short position for 2 mini lots EUR/USD") and will provide an indicative market price.
3. If you wish to close all open trades, you must say so. In this case, the NTL Rep will confirm the details of all open trades
4. It is your responsibility to ensure that the NTL Rep understands your order and to correct him/her if the order read back to you is not what you want.
5. You must confirm that you authorize NTL to close the trade(s) and the NTL Rep will proceed to do so.
6. Once trade(s) is/are closed, the NTL Rep will confirm that "Ticket #123456 0.2 EUR/USD is closed at 1.2345".
7. You will receive the trade closure details report as an email.

EXAMPLE:

Client: Hello, I wish to close a trade.

NTL Rep: Hello, May I have your full name, account number and Secret Question answer please?

Client: My name is John Smith, account 12345, Secret Question answer "password". **NTL Rep:** Ok, thank you. What is the ticket number of the trade you wish to close? **Client:** Ticket number 12345678

NTL Rep: Ok, the trade in question is a short position for 2 mini lots EUR/USD, is that correct?

Client: Yes, that is correct.

NTL Rep: Current market price is 1.2345. Do you want to close the trade?

Client: Yes, please close it.

NTL Rep: Ticket number 12345678 closed at 1.23334. You will receive an email with the order details.

Please note:

**In case of unsuccessful password authorization or if you refuse to go through this process, your instructions will not be accepted.

**Your instructions may need to be given in English.

11. Trade Inquiries

In the event of a dispute or question about a trade it is critical that you contact NTL's compliance department immediately with the full details of the issue. Send your inquiry to support@newtraderlab.com. Although you may call to discuss a trade issue, all such inquiries must be submitted in writing so there is a written record of the details. Should you delay in submitting an inquiry to NTL's support staff, NTL may determine that you waived your right to protest by waiting. We do not allow "free rides" on disputed trades.

12. System Manipulation. Arbitrage

It is expressly prohibited for you to directly or indirectly use any device, software, platform or other artifice to manipulate or attempt to manipulate the normal functioning of any electronic system, data feed, software, connection speed, platform or other interface, device or software of any type or kind made available to you by NTL in connection with trading on any trading platform made available by NTL. Our prohibition extends to, but is not limited to, efforts to buy at the bid, sell at the offer, or otherwise trade on or market prices by taking any action, directly or indirectly, that interferes with, jeopardizes, compromises, slows down, accelerates, impedes or interrupts the normal operation of any NTL operational and/or dealing activity, system, platform or pricing function. Should we determine, in our sole judgment, that you have engaged in a prohibited activity we reserve the right, in our sole discretion, to close your Account, report your activity to international authorities and withhold any gains created as a result of the prohibited activity. Such prohibited activity shall also include "arbitrage".

ANNEX III. Transmission & Execution of Customer Orders

The Standard License Conditions for firms that qualify as Investment Service Providers and MiFID firms regarding best execution are set forth in the Investment Service Rules (SLCs 2.54-2.62 and 2.70-2.71) as augmented by ESMA guidelines for systems and controls in an automated trading environment for trading platforms. When transmitting orders, NTL is obliged to establish and implement effective arrangements in order to achieve the best possible result. NTL reviews its orders transmission for execution policies on an ongoing basis and in line with prevailing legislation and adjusts and amends its policies should it be called for. This brief overview of NTL's order policies is a pertinent part of this Agreement, and through the Agreement you consent to our transmission and execution policies. Generally, your orders will be executed by the Service Provider outside a regulated market or Multilateral Trading Facility ("MTF") and directly with, for example, an OTC market maker and through this Agreement you consent having your orders executed outside a regulated market or MTF. In addition, NTL may enter into a prime broker agreement with other third-party liquidity providers. NTL's core system selects the best bid and the best offer shown by its liquidity providers at that moment in time so you will receive the best bid or offer for your transaction based upon which liquidity provider's pricing is optimum for your order. Should you give us an order to execute a trade on a particular venue, and we accept that order, your instruction will prevail over the present principles of best execution. In this instance you would bear the risk that NTL could not achieve the best possible execution. You agree that NTL reserves the right to modify its best execution policy without notice and at our sole discretion. NTL will notify you of any material changes to our order transmission and execution arrangements or other related policies.

For further details please refer to our Best Execution Policy, published and periodically updated at www.newtraderlab.com

ANNEX IV Managing Conflicts of Interest

Hogg Capital Investments/NewTraderLab maintains and operates effective organizational and administrative arrangements with a view to taking all reasonable steps designed to prevent conflicts of interest that can adversely affect the interests of our clients.

In this regard, we take all steps to identify conflicts of interest within the firm and any person directly or indirectly linked to us by control or between our client and another that arise in the course of business.

In compliance with the above, we refer you to our [Conflicts of Interest Policy](https://www.newtraderlab.com) at <https://www.newtraderlab.com>, which outlines the instances when conflicts of interest could arise and how such situations can be managed in the best effective manner in the interest of our clients.
